

PURPLE GROUP LIMITED

AUDITED SUMMARY CONSOLIDATED RESULTS FOR THE YEAR ENDED 31 AUGUST 2015

CHAIRMAN'S LETTER

Purple Group has grown up to be a young company.

Technology is central to our various client engagements and its continued development remains quietly core to the unveiling of our strategy and the establishment of our competitive advantage.

Clients, clients, clients is the mantra of the organisation. If you walk through our offices, you will find them filled with young energy and considered ambition, and you can't help but sense the client focus in all that we say and do. Our client growth figures validate this effort.

Our stated purpose – making markets easily accessible to everyone – is founded in the notion of universal economic dignity.

Across all demographics and economic strata of South African society, owning investment assets is, for most, a deferred dream. Ordinary people, inheritance aside, spend their entire economically active lives servicing the liabilities they incurred to fund aspirant lifestyles for themselves and better opportunities for their children.

It does not have to be that way.

By engaging with and listening to people, and using technology to communicate, we have found that, without exception, people know more than they thought they did about value and about investing. People understand brands and they know where they shop.

And so it is, across the various offerings in our group, we offer a walk in, sign up and invest now approach to our diverse client base. We don't discriminate on the basis of how much you have to start with.

The earlier you start investing, the sooner you can anticipate financial independence, and the freedom of choice that it brings with it. Incremental investment strategies that start now have a lower market timing risk than lump sums later, fact.

We have manifest common cause within the Purple Group. Everyone that works here owns shares in our company, everyone.

Congratulations to the management team and all who work here, enthusiastically setting about the realisation of our client building strategy. The traction and momentum we all feel is reward and testament enough to your efforts.

I wish to thank our major shareholders for their continued support, for the latitude we have to explore, invent, solve and deliver.

Mark Barnes
Chairman

CHIEF EXECUTIVE OFFICER'S LETTER

As you read through this year's Annual Report I'm sure that, like me, you will get a sense that there is no small measure of magic happening at the Purple Group.

The success headlined in our financials, awards received and asset management rankings performance has been hard fought. For anyone following our progress over the last few years, this should be no surprise. Our success and opportunity is forged from innovation, failure, determination, trust, understanding, experiences and mostly our extraordinary people. It is both exciting and rewarding to see how far an organisation and its people can come in such a short time when you get these ingredients in just the right measure.

I don't believe that there is a simple cookbook for success – ours or anyone else's. But, at the heart of everything we do lies the simple philosophy that, if you empower people, they will deliver extraordinary things. Empowerment doesn't come from telling people what to do. Nor does it come from giving them rights or titles. Instead, empowerment comes from showing people what's possible, daring them to dream, tooling them for their endeavours and, importantly, creating a fun, friendly, engaging, educational space for them to play, with safety nets for when they fall.

This is the philosophy and culture of our workplace, it is the ethos of our board and it is an integral part of everything we do. Nowhere is it more on display than in EasyEquities. Our challenge is to ensure that, as we raise the bar and redefine the landscape for financial services in South Africa, that we remain true to our desires and goals – to make investing easy for everyone and to democratise share ownership, once and for all.

The strategic pillars and focus, communicated in last year's integrated annual report, are proven in the results and the year ahead holds much promise and many opportunities. As an intentionally small team we will continue to be smart in where we choose to invest our resources and focus.

As a group, making correct choices means ensuring that we strike the right balance of growth, income and investment; that we partner the best opportunities into the right places and that we grow our people, remaining focused on making things #easy.

Leveraging technology to lower the cost, increasing agility and broadening access to financial products and services whilst focusing on improving client engagement through transparency and ease of use is what Fintech is all about.

Increased collaboration in partnering innovative Fintech business models with larger, trusted brand and distribution partners in order to maximise the "best of both worlds" is a trend we see playing out in South Africa. Purple Group is well positioned to take advantage of the opportunities presented.

Congratulations to #TeamPurple on a magical year.

Charles Savage
Group CEO

CHIEF FINANCIAL OFFICER'S REPORT

TOTAL REVENUE INCREASED BY 40% DURING THE YEAR, TOTALLING R131.4 million, with all business units contributing.

GT247.com

Key revenue drivers	FY 2015	FY 2014	% move
Revenue (R'000)	99 469	71 512	39.1
Nominal traded (R'bn)	366.6	243.7	50.4
Market volatility	15.5	13.8	12.3

GT247.com posted strong revenue growth of 39.1% during the year. Around 23% of this growth can be attributed to the products and services provided to asset managers, most notably to the Group's asset management business, Emperor Asset Management. The remainder of the growth was driven by a 12.3% increase in market volatility spurred by a number of events around the globe. Increased volatility drives trade activity (nominal traded) which in turn drives revenue.

EasyEquities

Key revenue drivers	FY 2015
Net trading expense (R'000)	(485)
Accounts opened	8 000+
Client funds (R'm)	154.7

GT247.com launched its EasyEquities platform on 27 October 2014. At 31 August 2015 (10 months since launch) this business had over 8 000 clients who had opened accounts with funds totalling R154.7 million.

GT Private Broking

Key revenue drivers	FY 2015	FY 2014	% move
Revenue (R'000)	22 528	17 354	29.8
Nominal traded (R'bn)	35.8	17.9	100.0
Client funds (R'm)	138.6	103.9	33.4
Market volatility	15.5	13.8	12.3

GT Private Broking's 29.8% growth in revenue was driven by a 33.4% increase in client funds, attracted by this business during the year, compounded by an increase in market volatility that saw trade volumes double. There was a significant increase in the nominal value traded in international and local stock indices during the current year, which are lower margin instruments for the business.

Emperor Asset Management

Key revenue drivers	FY 2015	FY 2014	% move
Management fees (R'000)	3 782	2 376	59.2
Performance fees (R'000)	6 139	1 242	394.3
Total revenue	9 921	3 618	174.2
Client funds (R'm)	579.6	407.6	42.2

Emperor Asset Management's revenue increased 174.2% compared to the prior period. This growth was largely driven by outperformance achieved by the various funds, specifically leading up to April 2015, and partly by a 42.2% increase in funds under management.

TRADING EXPENSES

Trading expenses	FY 2015	FY 2014	% move
IA broker commissions	5 425	4 911	10.5
Sales commissions	3 887	2 812	38.2
Research costs	919	91	909.9
Total	10 231	7 814	30.9
% trading revenue	7.8	8.3	

Trading expenses comprise introducing agent (IA) commissions, sales commissions and third-party research costs.

IAs are paid a percentage of all revenue generated by the Company from clients introduced by the IA. The increase in these commissions during the current year is predominantly due to the increased trading activity of IA introduced clients during the current year.

Sales commissions comprise commissions paid to the Company's sales force and GT Private Broking sales traders. The business introduced a sales internship programme during the current year with the objective of identifying young energetic graduates that can sell. To date, 12 graduates have completed the programme, of which six have been offered permanent employment. The business is focused on aggressively growing its sales force over the next few years in order to build on the revenue growth achieved during the current year.

GT Private Broking introduced a new research offering to its client base during the current year, resulting in a significant increase in research costs. The utilisation of this research by GT Private Broking clients will be monitored during the coming financial year in order to assess the benefits thereof to the business.

OPERATING EXPENSES

Operating expenses	FY 2015	FY 2014	% move
Employment costs	36 471	31 850	14.5
IT costs	13 716	12 057	13.8
Marketing	9 611	7 253	32.5
Office costs	5 812	6 007	(3.2)
Professional fees	5 555	3 400	63.4
Other	5 511	4 924	11.9
Total	76 676	65 491	17.1

Operating expenses increased by 17.1% during the current year. Although this increase may appear reasonable in light of the 40% increase in revenue, the cost base of the Group is currently inflated, based on current revenue levels, and is more reflective of the fact that the business has geared up its resources and capacity for growth expected in the next few years. In addition, the business is incurring significant costs in developing new products and improving existing products in order to differentiate its offering from those of its competitors and disrupt the status quo.

EMPLOYMENT COSTS

Employment costs increased by 14.5% during the year, comprising an average annual salary increase of around 13% for staff during March 2015. In addition, one executive and two management positions were created and filled during the year.

The higher than average salary increase during the year recognises the outstanding performance of the employees during the year and the value that the Company places on each of their continued contribution and loyalty. The new management and executive positions were made to support the new products launched during the current year and to assist the business in driving growth through aggressively delivering these products to the market.

IT COSTS

IT costs primarily include hosting and connectivity fees, various data-feed expenses and licensing costs. The 13.8% increase during the current year comprised an inflationary increase from various service providers and the impact of the depreciating Rand on the cost of our Bloomberg and Reuters data-feeds and various other IT solutions and systems sourced from foreign suppliers. In addition, our hosting fees increased by 12% during the current year with the launch of EasyEquities, and increased capacity required to cater for future growth in our asset management business.

MARKETING

The marketing spend was 32.5% higher during the current year and amounted to 7.3% (2014: 7.7%) of revenue, which is in our target range for marketing spend.

OFFICE COSTS

Office costs mainly comprise rental and rates charges (63%), telephone, mobile, stationery, printing and other general office costs. The 3.2% decrease in office expenditure was primarily due to the inclusion of a one-off cost incurred in the prior year of R235 000. On a like-for-like basis these costs remained flat as marginal increases in some office expenses were offset by a 24% decrease in telephone costs, achieved through the implementation of a new telephone solution.

As the business and head count grows the office costs would be expected to increase proportionately as the current office space has reached capacity.

PROFESSIONAL FEES

Professional fees primarily includes audit, compliance, regulatory and legal consulting fees.

Legal consulting fees were again high this year. The majority of the fees were incurred in developing and launching our EasyEquities platform, including the protection of the intellectual property associated with this product. In addition, the business incubated a majority Black-owned asset manager, launched its first hedge fund and two unit trusts, all of which required legal input.

Compliance and regulatory fees increased by 25% as a result of the new hedge fund licence awarded toward the end of last year, as well as the growth in our asset management business.

OTHER OPERATING EXPENSES

Other operating expenses include, travel and entertainment, listing costs, bank charges and other sundry expenses.

Travel and entertainment costs increased by 29% during the year due to an increase in the number of client roadshows and interactions along with an increase in the expense incurred in respect of our year-end results function which included clients and staff. The increased head count also added to the staff welfare costs which are included in this expense.

Another significant contributor to the increase was bank charges which increased by 35.2% during the year, which is in line with the 40.0% increase in revenue.

EBITDA

Earnings before interest, taxation, depreciation and amortisation (EBITDA) from core operations increased by 116.6% to R45.1 million for the year ended 31 August 2015.

NET INTEREST EXPENSE

The increase in the net interest expense is attributable to the additional funding facilities secured to part fund Purple Group's R26 million direct investment in Real People Investment Holdings during January 2015.

DEPRECIATION AND AMORTISATION

Depreciation and amortisation costs increased due to various new product development costs being capitalised during the year, mainly comprising IT development expenses in respect of the new EasyEquities platform.

FAIR VALUE, IMPAIRMENT AND GUARANTEE ADJUSTMENTS

	2015 R'000	2014 R'000
Real People Investment Holdings (RPIH)	31 557	-
Blockbuster Trading 3 (BBT)	-	(25 446)
Provision for financial guarantee – BBT	(31 058)	-
Umnombo Investment Holdings	-	(5 200)
Total – RPIH related profit/(loss)	499	(30 646)
African Independent Retail Finance	-	(978)
Total	499	(31 624)

Purple Group owns an indirect stake in RPIH through a 37.5% shareholding in BBT (an empowerment vehicle which holds a 3.93% (2014: 7.1%) stake in RPIH. BBT's stake in RPIH was diluted through a capital raising concluded by RPIH during January 2015.

At this time Purple Group took the decision to invest R26 million directly in RPIH (as communicated on SENS on 15 December 2014) in order to offset the dilution of Purple Group's indirect investment in RPIH through BBT, as the board of directors was of the opinion that the price at which the capital was being raised, by RPIH, was at a significant discount to fair value and as such it would have been value destroying if Purple Group did not partake in the capital raising.

In the result, Purple Group holds a 4.26% direct stake in RPIH (through normal equity and convertible preference shares) and redeemable preference shares with a cumulative face value of R10.4 million (which were subscribed for at a 42.5% discount to face value).

The profit of R0.5 million during the current year was the sum of a write-up of R31.6 million in the Group's direct investment in RPIH and a corresponding loss of R31.1 million relating to the Group's indirect stake in RPIH as a result of the capital raising concluded at a significantly discounted price. In the result, the Purple Group raised a provision for a financial guarantee provided by the BBT Shareholders, jointly and severally, to the Industrial Development Corporation (who part funded the deal).

This investment in RPIH remains non-core to the Purple Group and it will be exited over the next three years, subject to market conditions.

CURRENT AND DEFERRED TAX

The tax debit of R12.8 million for the year ended 31 August 2015 mainly comprises current tax of R12.5 million paid by First World Trader Proprietary Limited in respect of current year profits.

PROFIT FOR THE YEAR

Basic earnings per share for the year ended 31 August 2015 has increased from a loss per share of 2.09 cents in the prior year to a profit per share of 3.51 cents. Headline earnings per share has improved from a loss of 2.01 cents per share in the prior period to a profit of 3.51 cents per share.

SUMMARISED CONSOLIDATED STATEMENT OF FINANCIAL POSITION

Non-current assets increased by R55.8 million for the year ended 31 August 2015 as a result of Purple Group's direct investment in RPIH and subsequent write-up thereof. The investment of R26 million was partly funded by short-term facilities secured from the Company's bankers.

The increase in non-current liabilities is due to the provision raised for the financial guarantee.

The equity attributable to owners increased by R20.8 million, after payment of dividends/capital distributions totalling R16.9 million, and an increase in capital reserves of R6.1 million, resulting from directors and staff exercising share options during the year.

Gary van Dyk

Chief Financial and Operations Officer

OPERATING SEGMENTS

The operating segments are distinguished by the type of business and the management team responsible for the business unit. The Group comprises the following operating segments:

- GT247.com and Emperor Asset Management (EAM) which includes GT Private Broking, EasyEquities and EAM: are the derivatives trading, equity brokerage and asset management operations of the Group;
- Purple Group: manages the treasury and risk for the Group companies and is the Group's head office;
- Investments: fees and dividends earned on investments and fair value adjustments made against them;
- Powerbet Gaming Proprietary Limited trading as Voltbet: was the Group's sports betting operation.

	GT247.com and EAM R'000	Purple Group R'000	Investments R'000	Total R'000

Capital distribution out of share premium in lieu of a dividend

The directors declared a capital distribution out of share premium, by way of a reduction of contributed capital of 1 (one) cent per share, in lieu of a dividend, paid on 1 December 2014 to ordinary shareholders recorded in the Company's register at the close of business on 28 November 2014.

In respect of the current year, the directors declared that a capital distribution of 1.25 (one point two five) cents per share be paid to shareholders, by way of a reduction of share premium on 30 November 2015. The proposed dividend is payable to all shareholders on the Register of Members on 27 November 2015. The total estimated capital distribution to be paid is R10.8 million. The payment will not have any tax consequences for the Group.

As this capital distribution was declared after the reporting date, it will only be accounted for in the 2016 financial year.

Please refer to the announcement released on SENS on 5 November 2015 for the salient dates for the payment of the capital distribution.

Dividend payment

An interim gross cash dividend of 1 (one) cent per share (0.85 cents per share net of dividend withholding tax at a rate of 15%) was declared to shareholders in the register on 24 April 2015 and paid on 28 April 2015.

Subsequent events

The directors are not aware of any other matter or circumstances arising since year end up to the date of this announcement, not otherwise dealt with in this announcement.

Annual General Meeting

The annual general meeting of Purple Group will be held at The Offices of Hyde Park, Block B, Strouthos Place (off 2nd Road), Hyde Park on Friday, 4 December 2015 at 10:00.

Basis of preparation of the Audited results

The summary consolidated financial results are prepared in accordance with the requirements of the JSE Limited Listings Requirements for abridged reports, and the requirements of the Companies Act of South Africa applicable to summary financial statements. The Listings Requirements require abridged reports to be prepared in accordance with the framework concepts and the measurement and recognition requirements of International Financial Reporting Standards (IFRS) and the SAICA Financial Reporting Guides as issued by the Accounting Practices Committee and Financial Pronouncements as issued by the Financial Reporting Standards Council and to also, as a minimum, contain the information required by IAS 34 Interim Financial Reporting. The accounting policies applied in the preparation of the consolidated financial statements from which the summary financial statements were derived are in terms of International Financial Reporting Standards and are consistent with those accounting policies applied in the preparation of the previous consolidated annual financial statements, except for the adoption of new, improved and revised standards and interpretations, which had no material effect on the financial results. This report was compiled under the supervision of Gary van Dyk CA(SA), Chief Financial and Operations Officer.

The audited summary consolidated financial statements do not include all of the information required for full annual financial statements and should be read in conjunction with the consolidated annual financial statements for the year ended 31 August 2015. The directors take full responsibility for the preparation of the provisional report and that the financial information has been correctly extracted from the underlying Group audited financial statements.

Report of the independent auditors

These summary consolidated financial results for the year ended 31 August 2015 have been audited by BDO South Africa Inc., who expressed an unmodified opinion thereon. The auditor also expressed an unmodified opinion on the consolidated annual financial statements from which these summary consolidated financial results were derived. A copy of the auditor's unmodified report on the summary consolidated financial results and of the auditor's unmodified report on the consolidated annual financial statements are available for inspection at the Company's registered office, together with the financial statements identified in the respective auditor's reports.

The auditor's report does not necessarily report on all of the information contained in this announcement. Shareholders are therefore advised that in order to obtain a full understanding of the nature of the auditor's engagement they should obtain a copy of the auditor's report together with the accompanying financial information from the Company's registered office. Any reference to future financial performance included in this announcement has not been reviewed or reported on by the Company's auditor.

On behalf of the board
